SREE MANIKANTA

SENIOR SOFTWARE ENGINEER | FRONTEND ARCHITECTURE | AI-ASSISTED DEVELOPMENT

LinkedIn | +65 84042760 | sreemanikanta13@gmail.com

PROFESSIONAL SUMMARY:

Senior Frontend Engineer / Full-Stack Developer with 9+ years of software development experience, including engineering and building fintech products. Strong expertise in Vue.js, ReactJs, JavaScript, HTML/CSS, SCSS and PHP, with hands-on ownership of frontend architecture, reusable components, internationalization, multi-currency localization, data visualization and customer-facing product features. Experienced in working directly with Product Managers and Subject Matter Experts to turn business requirements into practical, user-focused solutions. Progressed from sole frontend ownership to Senior Frontend Engineer and broader full-stack responsibilities, including Vue 2 to Vue 3 modernization, AI-assisted development standards, automated PR quality.

TECHNICAL SKILLS:

Frontend: Vue.js 2/3, ReactJS, JavaScript, ES6+, TypeScript, Vite,HTML5, CSS3, SCSS, Bootstrap, Vite, ApexCharts, Vue I18n, Pinia, Component Architecture, Responsive UI, SPA Development, Charts & Data Visualization
Backend: PHP, Laravel, REST APIs, MySQL
Tools & Practices: Git, GitHub, JIRA, System Design, Application Security, Performance Optimization (Lazy Loading, Code Splitting), Micro-frontend Architecture
Engineering: Frontend Architecture, Reusable Components, Code Standards, GitHub, Git, CI/PR Automation, AI-assisted Development, Code Review, Performance Optimization, Cross-browser Development
Product & Domain: Fintech, Portfolio Management, Investments, Fundraising, KYC, Reporting, Internationalization, Multi-currency Localization, GDPR/DSAR

PROFESSIONAL EXPERIENCE:

Hatcher+ | Product Engineer / Senior Frontend Engineer | Singapore | October 2022 – Present

- Developed fintech product features across Vue.js and PHP/Laravel, implementing backend endpoints, working with databases, and integrating frontend workflows with REST APIs.
- Built and enhanced customer-facing investment, portfolio management, fundraising, investor workflow, and reporting features, translating product requirements into maintainable solutions in collaboration with Product Managers, SMEs, and backend engineers.
- Joined as the sole frontend developer in a predominantly backend-focused team and established frontend architecture, development standards, reusable component patterns and implementation practices.
- Progressed to Senior Frontend Engineer through frontend ownership, technical contribution and team enablement, subsequently expanded into broader full-stack development across Vue.js and PHP.
- Spearheaded frontend development for a fintech product, translating requirements from Product Managers and Subject Matter Experts into customer-facing features with a strong focus on usability, product outcomes and user experience.
- Led the end-to-end migration of the FAAST application from Vue 2 to Vue 3, taking ownership of a major frontend modernization initiative.
- Built reusable UI, chart and graph components and optimized portfolio pages to improve consistency, maintainability and user experience across the product.
- Contributed to application troubleshooting and delivery practices, working across the stack to resolve issues and maintain product quality.
- Introduced SCSS practices and frontend standards, and helped backend-focused developers adopt framework-oriented frontend development patterns and maintainable code practices.

- Built internationalization capabilities including language support, language-specific SCSS and dynamic language discovery, implemented fintech-focused multi-currency number formatting and localization.
- Adopted AI-assisted development using Claude Code and established coding rules and guardrails to keep AI-generated code aligned with existing architecture, coding standards, reusable components and established product patterns.
- Created a GitHub-based frontend PR review workflow/agent that checks coding standards, syntax issues, common mistakes, established patterns, build failures and required QA test IDs, reducing repetitive manual review effort and improving code consistency.
- Took a key implementation role in introducing GDPR Data Subject Access Request (DSAR) functionality within the codebase, translating privacy and compliance requirements into application functionality.
- Built and evolved the Create Report module.
- Regularly supported teammates with frontend implementation and technical guidance, helping improve frontend code quality and consistency across the team.

Talentvis Singapore Pte Ltd | Senior Software Engineer | Singapore | May 2022 – September 2022

- Developed responsive user interfaces using HTML5, CSS3, JavaScript and React.js.
- Worked on frontend application development using JavaScript, ES6, React and Angular.

Accenture Solutions Pvt Ltd | Senior Front End Development Analyst | June 2017 – February 2022

- Developed responsive user interfaces using HTML5, CSS3, Bootstrap and JavaScript for banking and life-science projects.
- Built frontend applications using JavaScript, ES6, React and Redux, including reusable React components and application state management.
- Ensured **WCAG** compliance by implementing accessibility features such as keyboard navigation, screen-reader support, and color contrast adjustments, improving user experience for all users."
- Led frontend development activities and supported project delivery across client engagements including Royal Bank of Scotland and Boomerang.
- Worked on banking tools and calculators, cross-browser compatibility, defect resolution, CMS-driven content and Agile delivery.
- Used Git/GitHub for source control and Jira for story and defect tracking.

IMPACT & FEEDBACK HIGHLIGHTS

- Recognized with the Accenture Celebrates Excellence (ACE) Award in the Inspiring Innovator category.
- Promoted to Senior Frontend Engineer following sustained frontend ownership, delivery and team contribution.
- Took full ownership of a major Vue 2 to Vue 3 migration and helped keep the product aligned with modern frontend standards.
